They include the assets, liabilities, results of operations and cash flows of the Company, including its domestic and foreign subsidiaries that are more than 50% owned or otherwise controlled by the Company. As permitted under such rules, certain notes and other financial information normally required by GAAP have been condensed or omitted. Management believes the accompanying condensed consolidated financial statements reflect all normal and recurring adjustments necessary for a fair statement of the Company's financial position, results of operations, and cash flows as of and for the periods presented herein. The Company's results of operations for the three and nine months ended September 30, 2024 and 2023 may not be indicative of the Company's future results. These condensed consolidated financial statements are unaudited and should be read in conjunction with the Company's audited consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2023.

The year-end condensed consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP.

Use of Estimates in the Preparation of the Condensed Consolidated Financial Statements – The preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make estimates and judgments that affect the amounts reported herein. Management bases its estimates and assumptions on historical experience and on various other factors that are believed to be reasonable under the circumstances. Due to the inherent uncertainty involved in making estimates, actual results reported in future periods may be affected by changes in those estimates.

Recently Adopted and Issued Accounting Pronouncements – In November 2023, the Financial Accounting Standards Board (FASB) issued new guidance that requires enhanced disclosures related to reportable segments that includes, among other disclosures, identifying significant segment expenses on an annual and interim basis. The outstanding balance on the Company's \$300 million unsecured revolving credit facility was \$66.9 million as of September 30, 2024, consisting of British Pound (GBP) borrowings of £50 million with interest payable at Daily Sterling Overnight Index Average (SONIA) plus 1.375%.

The fair value of the Company's other debt, which is based on Level 2 inputs, approximates its carrying value as of September 30, 2024 and December 31, 2023. The Company is in compliance with all financial covenants of the revolving credit facility and term loans as of September 30, 2024.

During the three months ended September 30, 2024 and 2023, the Company had average borrowings outstanding of approximately \$813.5 million and \$737.7 million, respectively, at average annual interest rates of approximately 6.3% and 6.2%, respectively. During the three months ended September 30, 2024 and 2023, the Company incurred net interest expense of \$23.6 million and \$9.8 million, respectively.

During the nine months ended September 30, 2024 and 2023, the Company had average borrowings outstanding of approximately \$819.6 million and \$737.1 million, respectively, at average annual interest rates of approximately 6.4% and 6.0%, respectively. During the nine months ended September 30, 2024 and 2023, the Company incurred net interest expense of \$130.0 million and \$33.1 million, respectively.

During the three and nine months ended September 30, 2024, the Company recorded interest expense of \$9.7 million and \$85.1 million, respectively, to adjust the fair value of the mandatorily redeemable noncontrolling interest. During the three and nine months ended September 30, 2023, the Company recorded interest expense of \$1.1 million and \$1.4 million, respectively, to adjust the fair value of the mandatorily redeemable noncontrolling interest. The fair value of the mandatorily redeemable noncontrolling interest was based on the fair value of the underlying subsidiaries owned by GHC One LLC (GHC One) and GHC Two LLC (GHC Two), after taking into account any debt and other noncontrolling interests of its subsidiary investments. The fair value of the owned subsidiaries is determined by reference to either a discounted cash flow or EBITDA multiple, which approximates fair value (Level 3 fair value assessment) (See Note 8).

On September 26, 2023, the Company's automotive subsidiary entered into a credit agreement with Truist Bank to finance the acquisition of the Toyota of Richmond dealership and to repay the outstanding balances of the commercial notes maturing in 2031 and 2032. The related interest rate swap agreements maturing in 2031 and 2032 were also terminated resulting in realized gains of \$4.6 million that reduced interest expense during the third quarter of 2023.

- (1) The Company's money market investments are included in cash and cash equivalents and the value considers the liquidity of the counterparty.
- (2) The Company's investments in marketable equity securities are held in common shares of U.S. corporations that are actively traded on U.S. stock exchanges. Price quotes for these shares are readily available.
- (3) Includes U.S. Government Securities, corporate bonds, mutual funds and time deposits. These investments are valued using a market approach based on the quoted market prices of the security or inputs that include quoted market prices for similar instruments and are classified as either Level 1 or Level 2 in the fair value hierarchy.
- (4) Included in Accounts payable, vehicle floor plan payable and accrued liabilities and Other Liabilities. The Company determined the fair value of the contingent consideration liabilities using either a Monte Carlo simulation, Black-Scholes model, or probability-weighted analysis depending on the type of target included in the contingent consideration requirements (revenue, EBITDA, client retention). All analyses included estimated financial projections for the acquired businesses and acquisition-specific discount rates.
- (5) Included in Other Liabilities. The Company utilized a market approach model using the notional amount of the interest rate swaps multiplied by the observable inputs of time to maturity and market interest rates.
- (6) The fair value of the mandatorily redeemable noncontrolling interest is based on the fair value of the underlying subsidiaries owned by GHC One and GHC Two, after taking into account any debt and other noncontrolling interests of its subsidiary investments. The fair value of the owned subsidiaries is determined using enterprise value analyses which include an equal weighing between guideline public company and discounted cash flow analyses.
- (7) Included in Accounts payable, vehicle floor plan payable and accrued liabilities, and valued based on a valuation model that calculates the differential between the contract price and the market-based forward rate.

The following tables provide a reconciliation of changes in the Company's financial liabilities measured at fair value on a recurring basis, using Level 3 inputs:

(1) Changes in fair value and accretion of value of contingent consideration liabilities are included in Selling, general and administrative expenses and the changes in fair value of mandatorily redeemable noncontrolling interest is included in Interest expense in the Company's Condensed Consolidated Statements of Operations.

Mandatorily Redeemable Noncontrolling Interest. The mandatorily redeemable noncontrolling interest represents the ownership portion of a group of minority shareholders, consisting of a group of senior managers of the healthcare business, in subsidiaries of GHG. The Company established GHC One and GHC Two as vehicles to invest in a portfolio of healthcare businesses together with the group of senior managers of GHG. As the holder of preferred units, the Company is obligated to contribute 95% of the capital required for the acquisition of portfolio investments with the remaining 5% of the capital coming from the group of senior managers. The operating agreements of GHC One and GHC Two require the dissolution of the entities on March 31, 2026, and March 31, 2029, respectively, at which time the net assets will be distributed to its members. As a preferred unit holder, the Company will receive an amount up to its contributed capital plus a preferred annual return of 8% (guaranteed return) after the group of senior managers has received the redemption of their 5% interest in net assets (manager return). All distributions in excess of the manager and guaranteed return will be paid to common unit holders, which currently comprise the group of senior managers of GHG. The Company may convert its preferred units to common units at any time after which it will receive 80% of all distributions in excess of the manager return, with the remaining 20% of excess distributions going to the group of senior managers as holders of the other common units. The mandatorily redeemable noncontrolling interest is reported as a noncurrent liability at September 30, 2024 and December 31, 2023 in the Condensed Consolidated Balance Sheets.

Other. During the nine months ended September 30, 2024, the Company recorded goodwill and intangible asset impairment charges of \$26.3 million. During the three and nine months ended September 30, 2023, the Company recorded goodwill and other long-lived asset impairment charges of \$98.3 million and \$99.1 million, respectively. The remeasurement of goodwill and other long-lived assets is classified as a Level 3 fair value assessment due to the significance of unobservable inputs developed in the determination of the fair value. The Company used a discounted cash flow model to determine the estimated fair value of the reporting units and other long-lived assets. The Company made estimates and assumptions regarding future cash flows, discount rates and long-term growth rates.

During the three and nine months ended September 30, 2024, the Company recorded gains of \$0.2 million to equity securities that are accounted for as cost method investments based on observable transactions for identical or similar investments of the same issuer. During the nine months ended September 30, 2023, the Company recorded gains of \$3.1 million to equity securities that are accounted for as cost method investments based on observable transactions for identical or similar investments of the same issuer. During the nine months ended September 30, 2024, the Company recorded impairment losses of \$0.7 million to equity securities that are accounted for as cost method investments.

During the three and nine months ended September 30, 2024, the Company recorded an impairment charge of \$14.4 million on one of its investments in affiliates (see Note 3). The Company used a market approach to determine the estimated fair value of its investment in the affiliate.

The Company generated 80% and 78% of its revenue from U.S. domestic sales for the three and nine months ended September 30, 2024. The remaining 20% and 22% of revenue was generated from non-U.S. sales for the three and nine months ended September 30, 2024. For the three and nine months ended September 30, 2023, 81% and 80% of revenue was from U.S. domestic sales and the remaining 19% and 20% of revenue was generated from non-U.S. sales.

For the three and nine months ended September 30, 2023, the Company recognized 53% and 55% of its revenue over time, and the remaining 47% and 45% at a point in time.

As of December 31, 2023, the contract asset was \$39.8 million. Additional contract assets of \$3.2 million are included in current assets on the Company's Condensed Consolidated Balance Sheet as of September 30, 2024.

Deferred Revenue. The Company records deferred revenue when cash payments are received or due in advance of the Company's performance which includes some payments that are refundable due to the contractual right of the customer to cancel the agreement. As of September 30, 2024 and December 31, 2023, 16% and 20% of the Company's deferred revenue consisted of prepaid amounts which are refundable. The following table presents the change in the Company's deferred revenue balance:

(in thousands)	As of		% Change
	September 30, 2024	December 31, 2023	
Deferred revenue	\$ 443,335	\$ 400,347	11

The majority of the change in the deferred revenue balance is related to the cyclical nature of services in the Kaplan international division. During the nine months ended September 30, 2024, the Company recognized \$341.7 million related to the Company's deferred revenue balance as of December 31, 2023, including \$61.7 million of prepaid amounts which were refundable at the prior year-end.

Revenue allocated to remaining performance obligations represents deferred revenue amounts that will be recognized as revenue in future periods. As of September 30, 2024, the deferred revenue balance related to certain medical and nursing qualifications with an original contract length greater than twelve months at Kaplan Supplemental Education was \$5.9 million. Kaplan Supplemental Education expects to recognize 61% of this revenue over the next twelve months and the remainder thereafter.

The majority of other activity was related to currency translation adjustments for the nine months ended September 30, 2024.

10. EARNINGS (LOSS) PER SHARE

The Company's unvested restricted stock awards contain nonforfeitable rights to dividends and, therefore, are considered participating securities for purposes of computing earnings per share pursuant to the two-class method. The diluted earnings per share computed under the two-class method is lower than the diluted earnings per share computed under the treasury stock method, resulting in the presentation of the lower amount in diluted earnings per share. The computation of the earnings per share under the two-class method excludes the income attributable to

the unvested restricted stock awards from the numerator and excludes the dilutive impact of those underlying shares from the denominator.

The following reflects the Company's net income (loss) and share data used in the basic and diluted earnings (loss) per share computations using the two-class method:

Earnings (loss) per share amounts may not recalculate due to rounding.

(1) Percent of undistributed losses allocated to common stockholders is 100% in the three months ended September 30, 2023 as participating securities are not contractually obligated to share in losses.

Diluted earnings (loss) per share excludes the following weighted average potential common shares, as the effect would be antidilutive, as computed under the treasury stock method:

(in thousands)	Three Months Ended September 30		Nine Months Ended September 30

The diluted earnings per share amounts for the three and nine months ended September 30, 2024 exclude the effects of 27,742 stock options and contingently issuable shares as their inclusion would have been antidilutive due to a market condition. The diluted (loss) earnings per share amounts for the three and nine months ended September 30, 2023 exclude the effects of 105,000 stock options and contingently issuable shares outstanding as their inclusion would have been antidilutive due to a market condition.

In October 2024, the Company purchased an irrevocable group annuity contract from an insurance company for \$461.3 million to settle \$457.9 million of the outstanding defined benefit pension obligation related to certain retirees and beneficiaries. The purchase of the group annuity contract was funded from the assets of the Company's pension plan. As a result of this transaction, the Company was relieved of all responsibility for these pension obligations and the insurance company is now required to pay and administer the retirement benefits owed to approximately 1,850 retirees and beneficiaries, with no change to the amount, timing or form of monthly retirement benefit payments. As a result, the Company estimates that it will record a one-time pre-tax settlement gain of approximately \$700 million in the fourth quarter of 2024.

In the third quarter of 2024, the Company recorded \$3.7 million in expenses related to Separation Incentive Programs (SIPs) for certain Kaplan, Dekko, WGB, Saatchi Art, Society6, Slate and Decile employees, which were funded from the assets of the Company's pension plan.

In the second quarter of 2024, the Company recorded \$14.8 million in expenses related to a Voluntary Retirement Incentive Program (VRIP) for certain Graham Media Group and Corporate employees, which was funded from the assets of the Company's pension plan. Also in the second quarter of 2024, the Company recorded \$1.6 million in expenses related to SIPs for certain Framebridge and Code3 employees, which was funded from the assets of the Company's pension plan. In the first quarter of 2024, the Company recorded \$0.4 million in expenses related to a SIP for certain Framebridge employees, which was funded from the assets of the Company's pension plans.

In the second quarter of 2023, the Company recorded \$5.5 million in expenses related to SIPs for certain Kaplan, Graham Media Group, Leaf Group, Code3 and Pinna employees, which was funded from the assets of the Company's pension plans. In the first quarter of 2023, the Company recorded \$4.1 million in expenses related to SIPs for certain Leaf Group and Code3 employees, which was funded from the assets of the Company's pension plans.

The total cost arising from the Company's Supplemental Executive Retirement Plan (SERP) consists of the following components:

(in thousands)	Three Months Ended September 30		Nine Months Ended September 30	
	2024	2023	2024	2023

Interest cost	1,128	1,164	3,385	3,494
Net Periodic Cost	\$ 1,415	\$ 1,312	\$ 4,247	\$ 3,938

Defined Benefit Plan Assets. The Company's defined benefit pension obligations are funded by a portfolio made up of private investment funds, a U.S. stock index fund, and a relatively small number of stocks and high-quality fixed-income securities that are held by a third-party trustee. The assets of the Company's pension plans were allocated as follows:

	As of	
	September 30, 2024	December 31, 2023
U.S. equities	56 %	59 %
U.S. fixed income	17 %	7 %
Private investment funds	16 %	17 %
International equities	11 %	14 %
U.S. stock index fund	— %	3 %
	100 %	100 %

The Company manages approximately 48% of the pension assets internally, of which the majority is invested in private investment funds with the remaining investments in Berkshire Hathaway and Markel stock, and short-term fixed-income securities. The remaining 52% of plan assets are managed by two investment companies. The goal of the investment managers is to produce moderate long-term growth in the value of these assets, while protecting them against large decreases in value. Both investment managers may invest in a combination of equity and fixed-income securities and cash. The managers are not permitted to invest in securities of the Company or in alternative investments. One investment manager cannot invest more than 15% of the assets at the time of purchase in the stock of Alphabet and Berkshire Hathaway, and no more than 35% of the assets it manages in specified international exchanges at the time the investment is made. The other investment manager cannot invest more than 20% of the assets at the time of purchase in the stock of Berkshire Hathaway and no more than 15% of the assets it manages in specified international exchanges at the time the investment is made. Excluding the exceptions noted above, the investment managers cannot invest more than 10% of the assets in the securities of any other single issuer, except for obligations of the U.S. Government, without receiving prior approval from the Plan administrator.

In determining the expected rate of return on plan assets, the Company considers the relative weighting of plan assets, the historical performance of total plan assets and individual asset classes and economic and other indicators of future performance. In addition, the Company may consult with and consider the input of financial and other professionals in developing appropriate return benchmarks.

The Company evaluated its defined benefit pension plan asset portfolio for the existence of significant concentrations (defined as greater than 10% of plan assets) of credit risk as of September 30, 2024. Types of concentrations that were evaluated include, but are not limited to, investment concentrations in a single entity, type of industry, foreign country and individual fund. At September 30, 2024, the pension plan held investments in one common stock, one private investment fund, and one U.S. Treasury securities fund that exceeded 10% of total plan assets, valued at \$1,736.1 million, or approximately 51% of total plan assets. At December 31, 2023, the pension plan held investments in one common stock and one private investment fund that exceeded 10% of total plan assets, valued at \$1,011.1 million, or approximately 34% of total plan assets. Assets also included \$91.0 million and \$82.4 million of Markel shares at September 30, 2024 and December 31, 2023, respectively.

Other Postretirement Plans. The total benefit arising from the Company's other postretirement plans consists of the following components:

The gain on cost method investments results from observable price changes in the fair value of the underlying equity securities accounted for under the cost method (see Notes 3 and 8).

During the nine months ended September 30, 2024, the Company recorded contingent consideration gains of \$0.9 million related to the disposition of Kaplan University (KU) in 2018. During the three and nine months ended September 30, 2023, the Company recorded contingent consideration gains of \$1.1 million and \$4.3 million, respectively.

Although the outcomes of the legal claims and proceedings against the Company cannot be predicted with certainty, based on currently available information, management believes that there are no existing claims or proceedings that are likely to have a material effect on the Company's business, financial condition, results of operations or cash flows. Kaplan International includes postsecondary education, professional training and language training businesses largely outside the United States (U.S.). Kaplan International revenue increased 11% and 14% for the third quarter and first nine months of 2024, respectively (9% and 12%, respectively, on a constant currency basis). The increase is due largely to growth at Australia, Pathways, UK Professional and Singapore. Kaplan International reported operating income of \$25.5 million in the third quarter of 2024, compared to \$22.2 million in the third quarter of 2023. The increase is due largely to improved results at Australia, UK Professional and Pathways. Operating income increased to \$82.7 million in the first nine months of 2024, compared to \$64.3 million in the first nine months of 2023. The increase is due largely to improved results at Australia, UK Professional, Pathways and Singapore, partially offset by a decline at Languages.

Higher Education includes the results of Kaplan as a service provider to higher education institutions. Higher Education revenue increased 5% for the third quarter of 2024, due primarily to an increase in the Purdue Global fee recorded. Higher Education revenue declined 1% for the first nine months of 2024, due to reduced reimbursable expenses from Purdue Global. Enrollments at Purdue Global, the largest institutional client, increased 2% for the first nine months of 2024 compared to the first nine months of 2023. For the third quarter and first nine months of 2024 and 2023, Kaplan recorded a portion of the fee from Purdue Global. The Company will continue to assess the fee it records from Purdue Global on a quarterly basis to make a determination as to whether to record all or part of the fee in the future and whether to adjust fee amounts recognized in earlier periods. Higher Education operating results improved in the third quarter of 2024 due to an increase in the Purdue Global fee recorded. Higher Education operating results declined in the first nine months of 2024 due to primarily to an increase in higher education development costs.

Supplemental Education includes Kaplan's standardized test preparation programs and domestic professional and other continuing education businesses. Supplemental Education revenue declined 3% and 2% for the third quarter and first nine months of 2024, respectively, driven mostly by softness in Medical Licensure test preparation and publishing activities and Real Estate, offset in part by growth in Insurance, CFA, Architecture and Engineering and MCAT test preparation. Operating results improved in the third quarter and first nine months of 2024 due to cost reductions from lower headcount, partially offset by lower revenues.

Kaplan corporate and other represents unallocated expenses of Kaplan, Inc.'s corporate office, other minor businesses and certain shared activities. Kaplan corporate and other expenses increased in the third quarter and first nine months of 2024, largely due to increased employee benefit and incentive compensation costs.

In the third quarter of 2024, the Company offered a SIP to certain employees at Supplemental Education, which was funded from the assets of the Company's pension plan; \$2.7 million in related non-operating pension expense was recorded in the third quarter of 2024.

Revenue	\$ 145,422	\$ 116,112		25	\$ 373,958	\$ 347,818		8

Graham Media Group, Inc. owns seven television stations located in Houston, TX; Detroit, MI; Orlando, FL; San Antonio, TX; Jacksonville, FL; and Roanoke, VA, as well as SocialNewsDesk, a provider of social media management tools designed to connect newsrooms with their users. Revenue at the television broadcasting division increased 25% to \$145.4 million in the third quarter of 2024, from \$116.1 million in the same period of 2023. The revenue increase is due to a \$34.5 million increase in political advertising revenue, increases from summer Olympics-related advertising revenue at the Company's NBC stations and an increase in digital advertising revenue, partially offset by a \$3.4 million decrease in retransmission revenue and a decline in local advertising revenue. Operating income for the third quarter of 2024 was up 94% to \$61.9 million, from \$31.9 million in the same period of 2023, due to higher revenues and lower network fees, partially offset by increased pension expense.

Revenue at the television broadcasting division was up 8% to \$374.0 million in the first nine months of 2024, from \$347.8 million in the same period of 2023. The revenue increase is due to a \$40.8 million increase in political advertising revenue, increases from summer Olympics-related advertising at the Company's NBC stations and an increase in digital advertising revenue, partially offset by a decline in local advertising revenue and a \$6.1 million decrease in retransmission revenue. Operating income for the first nine months of 2024 was up 31% to \$122.7 million, from \$93.7 million in the same period of 2023, due to higher revenues and lower network fees, partially offset by increased pension expense. While per subscriber rates from cable, satellite and OTT providers have grown, overall cable and satellite subscribers are down due to cord cutting, resulting in retransmission revenue net of network fees in 2024 expected to decline compared with 2023, and this trend is expected to continue.

In the second quarter of 2024, the Company offered a VRIP to certain employees at the television broadcasting division. The early retirement program expense for this program was funded by the assets of the Company's pension plan; \$14.3 million in related non-operating pension expense was recorded in the second quarter of 2024.

A summary of manufacturing's operating results is as follows:

(in thousands)	Three Months Ended September 30			% Change	Nine Months Ended September 30			% Change
	2024	2023			2024	2023		
Revenue	\$ 95,385	\$ 109,216		(13)	\$ 300,914	\$ 343,882		(12)
Operating Income (Loss)	4,495	(40,974)		—	11,829	(21,664)		—

Manufacturing includes four businesses: Hoover, a supplier of pressure impregnated kiln-dried lumber and plywood products for fire retardant and preservative applications; Dekko, a manufacturer of electrical workspace solutions, architectural lighting and electrical components and assemblies; Joyce/Dayton, a manufacturer of screw jacks and other linear motion systems; and Forney, a global supplier of products and systems that control and monitor combustion processes in electric utility and industrial applications.

Manufacturing revenues decreased 13% and 12% in the third quarter and first nine months of 2024, respectively. The revenue decline in the third quarter of 2024 is due to largely to lower revenues at Hoover, along with declines at Dekko, partially offset by increased revenues at Forney. The revenue decline in the first nine months of 2024 is due largely to lower revenues at Hoover, and declines at Dekko and Joyce. The revenue decline at Hoover is due largely to a decrease in overall product demand, particularly for multi-family housing. Revenues declined at Dekko due to lower product demand. Overall, Hoover results included wood gains on inventory sales in the first nine months of 2024 and 2023, with gains in the first nine months of 2024 much lower than the prior year. For the third quarter of 2024, Hoover results included modest wood gains on inventory sales compared with higher wood gains on inventory sales in the third quarter of 2023. Manufacturing operating results improved in the third quarter and first nine months of 2024 due to a \$47.8 million goodwill impairment charge at Dekko recorded in the third quarter 2023. Excluding this goodwill impairment charge, manufacturing results were down in the third quarter and first nine months of 2024, due largely to significant declines at Hoover and Dekko, along with declines at Joyce and Forney.

In the third quarter of 2024, the Company offered a SIP to certain employees at Dekko, which was funded by the assets of the Company's pension plan; \$0.1 million in related non-operating pension expense was recorded in the third quarter of 2024.

Graham Healthcare Group (GHG) provides home health and hospice services in seven states. GHG also provides nursing care and prescription services for patients receiving in-home infusion treatments through its 86.7% interest in CSI Pharmacy Holding Company, LLC (CSI), and other healthcare services. Healthcare revenues increased 34% and 30% for the third quarter and first nine months of 2024, respectively, due largely to significant growth at CSI from an expansion of infusion treatment offerings and patient service areas; revenues also grew in home health and hospice services and at the other healthcare businesses. The increase in GHG operating results in the third quarter and first nine months of 2024 is due to substantially higher operating results at CSI from significant revenue growth, along with improved results at home health, partially offset by increased pension expense. In January 2022, GHG implemented a pension credit retention program offering a pension credit up to \$50,000 per employee, cliff vested after three years of continuous employment for certain existing employees and new employees. Effective April 1, 2024, this program is no longer being offered to new employees.

Revenues for the first nine months of 2024 increased 18% due largely to the Toyota of Richmond acquisition and the addition of the Kia dealership, as well as sales growth for services and parts, partially offset by a decline in used vehicle sales and a decline in sales of finance and insurance products offerings. Operating results increased modestly for the first nine months of 2024 due largely to earnings from the Toyota of Richmond acquisition and higher overall gross profit on services and parts, partially offset by lower overall gross margins on new and used vehicles and a decline in finance and insurance product sales.

(2) Includes World of Good Brands (formerly Leaf Media), Code3, Slate, Foreign Policy, Pinna and City Cast

(3) Includes Clyde's Restaurant Group, Decile and Supporting Cast

Overall, revenue from other businesses declined 4% and 6% in the third quarter and first nine months of 2024, respectively. Retail revenue declined in the first nine months of 2024 largely due to lower revenue at Society6, partially offset by revenue growth at Saatchi Art and Framebridge. Media revenue declined in the first nine months of 2024 due to lower revenue at WGB and Code3, partially offset by revenue growth at Slate, Foreign Policy and City Cast. Specialty revenue increased in the first nine months of 2024 due to revenue growth at Clyde's Restaurant Group (CRG), Decile and Supporting Cast. Excluding the former Leaf businesses, revenue from other businesses grew in the third quarter and first nine months of 2024.

Overall, operating results at other businesses improved in the first nine months of 2024 due to \$26.3 million in goodwill and intangible asset impairment charges at WGB in 2024 compared to \$50.2 million in goodwill impairment charges at WGB in 2023. Excluding these impairment charges and increased pension expense, operating losses at other businesses in the first nine months of 2024 were similar to the prior year.

Leaf Group

On June 14, 2021, the Company acquired Leaf Group Ltd. (Leaf), a consumer internet company headquartered in Santa Monica, CA, that builds enduring, creator-driven brands that reach passionate audiences in large lifestyle categories, including fitness and wellness (Well+Good and Livestrong.com), and home, art and design (Saatchi Art and Society6).

In the second quarter of 2023, the Company restructured Leaf into three stand-alone businesses: Society6 (formerly included in Leaf Marketplace), Saatchi Art (formerly included in Leaf Marketplace) and WGB (formerly Leaf Media). The transition process for this restructuring has involved various cost reduction initiatives, including elimination of shared services costs and functions; transitioning financial and human resources systems; and rationalizing physical facilities and data centers. In the first and second quarters of 2023, Leaf implemented a SIP to reduce the number of employees, which was funded by the assets of the Company's pension plan; \$2.9 million and \$3.9 million in related non-operating pension expense was recorded in the first and second quarters of 2023, respectively. Each of Society6, Saatchi Art and WGB has continued with the transition and cost reduction process, which was largely complete at the end of the second quarter of 2024. In the third quarter of 2024, the Company implemented an additional SIP at Society6, Saatchi Art and WGB, which was funded from the assets of the Company's pension plan; \$0.5 million in related non-operating pension expense was recorded.

Revenues at Society6 and WGB declined substantially in the third quarter and first nine months of 2024. Revenue declines at Society6 are due to declines in traffic, largely driven by a significant decrease in advertising spend, as well as softer demand in the home decor category. Revenue declines at WGB are due to reduced traffic and the soft digital advertising market for programmatic. Revenues at Saatchi Art grew in the first nine months of 2024. Overall, the Leaf businesses reported significant operating losses in each of the third quarters and first nine months of 2024 and 2023.

As a result of the substantial digital advertising revenue declines and continued significant operating losses at WGB, the Company recorded a \$50.2 million goodwill impairment charge in the third quarter of 2023. In the second quarter of 2024, the Company recorded an additional \$26.3 million in goodwill and intangible asset impairment charges at WGB. Excluding these impairment charges, losses increased at the Leaf businesses in the third quarter and first nine months of 2024.

Excluding pre-opening expenses incurred for new restaurants, operating results improved modestly for the third quarter and first nine months of 2024. CRG reported an operating loss in each of the third quarters of 2024 and 2023, while CRG reported an operating profit in each of the first nine months of 2024 and 2023.

Framebridge plans to open six additional retail stores in the fourth quarter of 2024 and continues to actively explore other opportunities for further store expansion.

Revenues increased in the third quarter and first nine months of 2024 due to an increase in retail revenue from same-store sales growth and operating additional retail stores compared to the same periods in 2023. Framebridge is an investment stage business and reported significant operating losses in the first nine months of 2024 and 2023. Excluding increased pension expense, operating losses at Framebridge for the first nine months of 2024 were similar to the prior year.

In the first and second quarters of 2024, Framebridge implemented a SIP, which was funded by the assets of the Company's pension plan; \$0.4 million and \$1.0 million in related non-operating pension expense was recorded in the first and second quarters of 2024, respectively.

The Company recorded interest expense of \$9.7 million and \$85.1 million in the third quarter and first nine months of 2024, respectively, to adjust the fair value of the mandatorily redeemable noncontrolling interest at GHG. The significant adjustment recorded in the first nine months of 2024 is largely related to a substantial increase in the estimated fair value of CSI. The Company recorded interest expense of \$1.1 million and \$1.4 million in the third quarter and first nine months of 2023, respectively, to adjust the fair value of the mandatorily redeemable noncontrolling interest at GHG.

Excluding these adjustments, the increase in net interest expense relates primarily to higher debt balances, higher interest rates on the Company's variable debt, and increased floor plan interest expense.

On September 12, 2024, the Board of Directors authorized the Company to acquire up to 500,000 shares of its Class B common stock; the Company has remaining authorization for 486,132 shares as of September 30, 2024.

Other

The Company continuously assesses relevant events and circumstances to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. In the second quarter of 2024, the Company performed an interim impairment review at the WGB reporting unit.

As a result of continued sustained weakness in digital advertising demand resulting in substantial revenue declines and continued significant operating losses at WGB, the Company recorded a \$7.5 million goodwill impairment charge at WGB. After the impairment charge, no goodwill remains at the WGB reporting unit, which is included in other businesses. Additionally, the Company recorded a \$18.8 million intangible asset impairment charge at WGB.

It is possible that impairment charges, which may be material, could occur in the future, given changes in market conditions and the inherent variability in projecting future operating performance.

Financial Condition: Liquidity and Capital Resources

The Company considers the following when assessing its liquidity and capital resources:

(In thousands)	As of	
	September 30, 2024	December 31, 2023
Cash and cash equivalents	\$ 244,361	\$ 169,897
Restricted cash	37,863	31,994
Investments in marketable equity securities and other investments	831,760	697,028
Total debt	765,191	811,833

Cash generated by operations is the Company's primary source of liquidity. The Company maintains investments in a portfolio of marketable equity securities, which is considered when assessing the Company's sources of liquidity. An additional source of liquidity includes the undrawn portion of the Company's \$300 million revolving credit facility,

amounting to \$233.1 million at September 30, 2024 and the undrawn \$50.0 million delayed draw term loan at the automotive subsidiary.

During the first nine months of 2024, the Company's cash and cash equivalents increased by \$74.5 million, due to cash generated from operations, the net proceeds from the sale and purchase of marketable equity securities and net proceeds from the vehicle floor plan payable, which was offset by share repurchases, repayment of borrowings, capital expenditures, and dividend payments. In the first nine months of 2024, the Company's borrowings decreased by \$46.6 million, primarily due to repayments under the revolving credit facility, term loan and commercial notes at the automotive subsidiary.

As of September 30, 2024 and December 31, 2023, the Company had money market investments of \$95.5 million and \$5.6 million, that are included in cash and cash equivalents. At September 30, 2024, the Company held approximately \$96 million in cash and cash equivalents in businesses domiciled outside the U.S., of which approximately \$8 million is not available for immediate use in operations or for distribution. Additionally, Kaplan's business operations outside the U.S. retain cash balances to support ongoing working capital requirements, capital expenditures, and regulatory requirements. As a result, the Company considers a significant portion of the cash and cash equivalents balance held outside the U.S. as not readily available for use in U.S. operations.

At September 30, 2024, the fair value of the Company's investments in marketable equity securities was \$825.4 million, which includes investments in the common stock of four publicly traded companies. During the first nine months of 2024, the Company purchased \$5.0 million of marketable equity securities and sold marketable equity securities that generated proceeds of \$23.5 million. At September 30, 2024, the net unrealized gain related to the Company's investments totaled \$598.3 million.

In May 2024, the Company entered into a convertible promissory note agreement to loan N2K Networks \$2.0 million. The convertible promissory note bears interest at a rate of 12% per annum and, subject to conversion provisions, all unpaid interest and principal are due by May 2027.

In April 2023, the Company entered into a term note agreement to loan Intersection \$30.0 million at an interest rate of 9% per annum. The principal and interest on the note are payable in monthly installments over 5 years with the final payment due by May 2028. The outstanding balance on this loan was \$26.7 million as of September 30, 2024.

The Company had working capital of \$752.8 million and \$619.6 million at September 30, 2024 and December 31, 2023, respectively. The Company maintains working capital levels consistent with its underlying business requirements and consistently generates cash from operations in excess of required interest or principal payments.

At September 30, 2024 and December 31, 2023, the Company had borrowings outstanding of \$765.2 million and \$811.8 million, respectively. The Company's borrowings at September 30, 2024 were mostly from \$400.0 million of 5.75% unsecured notes due June 1, 2026, \$66.9 million in outstanding borrowings under the Company's revolving credit facility, a term loan of \$141.9 million, and real estate and capital term loans of \$130.1 million at the automotive subsidiary. The Company's borrowings at December 31, 2023 were mostly from \$400.0 million of 5.75% unsecured notes due June 1, 2026, \$97.9 million in outstanding borrowings under the Company's revolving credit facility, a term loan of \$147.5 million, and real estate and capital term loans of \$137.6 million at the automotive subsidiary. The interest on the \$400.0 million of 5.75% unsecured notes is payable semiannually on June 1 and December 1.

During the nine months ended September 30, 2024 and 2023, the Company had average borrowings outstanding of approximately \$819.6 million and \$737.1 million, respectively, at average annual interest rates of approximately 6.4% and 6.0%, respectively. During the nine months ended September 30, 2024 and 2023, the Company incurred net interest expense of \$130.0 million and \$33.1 million, respectively. Included in the interest expense for the nine months ended September 30, 2024 and 2023 is \$85.1 million and \$1.4 million, respectively, to adjust the fair value of the mandatorily redeemable noncontrolling interest (see Notes 7 and 8).

On September 26, 2023, the Company's automotive subsidiary entered into a credit agreement with Truist Bank to finance the acquisition of the Toyota of Richmond dealership and to repay the outstanding balances of the commercial notes maturing in 2031 and 2032. The related interest rate swap agreements maturing in 2031 and 2032 were also terminated resulting in realized gains of \$4.6 million that reduced interest expense during the third quarter of 2023.

On August 19, 2024, Moody's affirmed the Company's credit rating and maintained the outlook as Stable. On April 2, 2024, Standard & Poor's affirmed the Company's credit rating and maintained the outlook as Stable.

The Company's current credit ratings are as follows:

	Moody's	Standard & Poor's
Long-term	Ba1	BB
Outlook	Stable	Stable

The Company expects to fund its estimated capital needs primarily through existing cash balances and internally generated funds, and, as needed, from borrowings under its revolving credit facility. As of September 30, 2024, the Company had \$66.9 million outstanding under the \$300 million revolving credit facility. In management's opinion, the Company will have sufficient financial resources to meet its business requirements in the next 12 months, including working capital requirements, capital expenditures, interest payments, potential acquisitions and strategic investments, dividends and stock repurchases.

In summary, the Company's cash flows for each period were as follows:

(In thousands)	Nine Months Ended September 30	
	2024	2023
Net cash provided by operating activities	\$ 290,676	\$ 202,526

Operating Activities. Cash provided by operating activities is net income adjusted for certain non-cash items and changes in assets and liabilities. The Company's net cash flow provided by operating activities were as follows:

(In thousands)	Nine Months Ended September 30	
	2024	2023
Net Income	\$ 181,018	\$ 156,014
Adjustments to reconcile net income to net cash provided by operating activities:

Net pension benefit, early retirement programs and special separation benefit expense	(64,532)	(73,852)
Other non-cash activities	(113,560)	(86,439)
Change in operating assets and liabilities	118,491	(44,786)
Net Cash Provided by Operating Activities	\$ 290,676	\$ 202,526

Net cash provided by operating activities consists primarily of cash receipts from customers, less disbursements for costs, benefits, income taxes, interest and other expenses.

For the first nine months of 2024 compared to the first nine months of 2023, the increase in net cash provided by operating activities is primarily driven by the changes in operating assets and liabilities, partially offset by lower net income, net of non-cash adjustments. Changes in operating assets and liabilities were driven by a significant increase in the value of the mandatorily redeemable noncontrolling interest, decreases in vendor payments and purchases of inventory.

Investing Activities. The Company's net cash flow used in investing activities were as follows:

(In thousands)	Nine Months Ended September 30	
	2024	2023

In addition to a cash payment and the assumption of \$2.2 million in floor plan payables, the automotive subsidiary borrowed \$37.0 million to finance the acquisition.

The automotive subsidiary used the net proceeds from the real estate and capital term loans to acquire an automotive dealership, including the real property for the dealership operations, and to repay the outstanding balances of the commercial notes maturing in 2031 and 2032. On July 28, 2023, the Company entered into a \$150 million term loan and used the proceeds to repay the U.S. dollar borrowings of the \$300 million revolving credit facility. In the first nine months of 2024 and 2023, the Company used vehicle floor plan financing to fund the purchase of new, used and service loaner vehicles at its automotive subsidiary. Forward-Looking Statements

All public statements made by the Company and its representatives that are not statements of historical fact, including certain statements in this report, in the Company's Annual Report on Form 10-K and in the Company's

2023 Annual Report to Stockholders, are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on expectations, forecasts, and assumptions by the Company’s management and involve a number of risks, uncertainties, and other factors that could cause actual results to differ from those stated, including, without limitation, comments about expectations related to acquisitions or dispositions or related business activities, the Company’s business strategies and objectives, the prospects for growth in the Company’s various business operations, the Company’s future financial performance, and the risks and uncertainties described in Item 1A of the Company’s Annual Report on Form 10-K. Accordingly, undue reliance should not be placed on any forward-looking statement made by or on behalf of the Company. The Company assumes no obligation to update any forward-looking statement after the date on which such statement is made, even if new information subsequently becomes available.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

The Company is exposed to market risk in the normal course of its business due primarily to its ownership of marketable equity securities, which are subject to equity price risk; to its borrowing and cash-management activities, which are subject to interest rate risk; and to its foreign business operations, which are subject to foreign exchange rate risk. The Company’s market risk disclosures set forth in its 2023 Annual Report filed on Form 10-K have not otherwise changed significantly.

Item 4. Controls and Procedures.

Based on that evaluation, the Company’s Chief Executive Officer and Chief Financial Officer have concluded that the Company’s disclosure controls and procedures, as designed and implemented, are effective in ensuring that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission’s rules and forms and is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure.
